EDUCATION

Bachelor of Engineering (B.E), Computer Science
BMS College of Engineering
2021 - 2025
CGPA: 7.81/10

POSITIONS OF RESPONSIBILITY

Led the sessions committee for ICETCS 2024 at BMS College of Engineering, in collaboration with IEEE Bangalore Section. Managed a team of 25 volunteers, coordinated, and ensured smooth operations of sessions during the conference on April 22-23,2024.

PROJECTS

Campus Care

Dec 2023 - Mar 2024

Campus Care is a Flutter app simplifying college complaint management, especially for electrical issues. It streamlines reporting for users and connects them with technicians for quick resolution, enhancing campus safety and efficiency.

Scholars Crate

Jan 2023 - Mar 2023

Scholars Crate is a full-stack web design dedicated to facilitating seamless scholarship exploration and application processes. With a clean user interface, the website offers a experience for students, providing a platform to apply for scholarships.

Weather Prediction Using CNN

Apr 2024 - Present

Developing a weather prediction model using Convolutional Neural Networks (CNNs). This project involved collecting and preprocessing historical weather data, designing a CNN architecture, and optimizing the model for accuracy. The trained model effectively utilized CNNs to extract features from time-series data, resulting in accurate weather forecasts.
